“Intimate Conversations With Greatness”

**“Embracing our History-Enhancing our
Future”**

September 12, 2007

8 am-6 pm
Tennessee State University

Introduction

This is an “Intimate Gathering” of some of our sports most historically successful African-American coaches and athletes. It has been designed to empower and educate the current generation of coaches and athletes. Never before have we been given the opportunity to sit and be taught and touched by such a phenomenally wise, intelligent and successful panel of coaches and athletes.

“Education is the most powerful weapon which you can use to change the world”

Nelson Mandela

This is an amazing opportunity to learn how to create “The Ultimate Competition” not only in sports but in life. We coach and teach in an era where schools and universities are given greater responsibility for the overall development of the student-athlete. We must not only educate ourselves with the technical knowledge of sports but with the “Intellectual Wisdom” needed to impact and touch the lives of our student -athletes beyond sports.

“Never underestimate the power of dreams and the influence of the human spirit”

Wilma Rudolph

You are all successful and influential coaches and teachers who inspire many to dream. This is an opportunity to receive and share wisdom among several generations to help nourish and fortify our resolve to create “Champions in Life”
